

IN THE CLAIMS:

Please AMEND claim 3 and ADD new claims 7-8 in accordance with the following:

1. (ORIGINAL) A timepiece for indicating a sunrise and sunset time and a position of the sun comprising:

an hour hand which rotates once per 24 hours; and

a bottom plate including a sunrise and sunset time designating section for designating a scale corresponding to said sunrise time and said sunset time for each month.

2. (ORIGINAL) A timepiece according to Claim 1, comprising a minute hand which rotates once per hour.

3. (CURRENTLY AMENDED) A timepiece according to ~~Claims~~ Claim 1, wherein said hour hand includes a design symbolizing the sun.

4. (ORIGINAL) A timepiece for indicating a sunrise and sunset time and a position of the sun comprising:

an hour hand which rotates once per 24 hours;

a sunrise time designating plate including a sunrise time designating section having a scale for indicating said sunrise time; and

a sunset time designating plate including a sunset time designating section having a scale for indicating said sunset time,

one of said sunrise time designating plate and said sunset time designating plate in rotation, with the other plate in rotation to a counter direction to said first plate while keeping an interlocking state with said first plate.

5. (ORIGINAL) A timepiece according to Claim 4, comprising a minute hand which rotates once per hour.

6. (PREVIOUSLY PRESENTED) A timepiece according to Claim 4, wherein said hour hand includes a design symbolizing the sun.

7. (NEW) A timepiece comprising:
a hand to rotate once per 24 hours; and
a plate including a scale corresponding to a sunrise time and a sunset time for each month.

8. (NEW) A timepiece comprising:
a first plate having a scale to indicate a sunrise time;
a second plate having a scale to indicate a sunset time to interlock with the first plate,
wherein the first and second plates rotate relative to each other; and
a hand opposite the first or the second plate to rotate once per 24 hours.
